Town Treasurer.

We hereby certify that we have examined the foregoing accounts and find them properly vouched and correctly cast.

AUSTIN L. CALEF,
EDMUND L. POPE,
Auditors.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Barrington:

There are two outstanding needs of the schools of Barrington. One is the improvement of the school houses and the other is finding and keeping good teachers. Anyone that sees school children at their work in some of the nearby towns in buildings that are clean and attractive, that are comfortable and convenient, that are properly heated and ventilated and properly lighted, cannot help but wish that Barrington children could spend their 8,640 hours of school life in such surroundings. Barrington may well be proud of the progress that has been made in the past few years. People who have seen the Oak Hill school house are well satisfied with the improvements that have been made there. Similar changes should be made at Waldron Hill and Pond Hill and eventually at Green Hill if that school house continues in use.

THE NEED OF WELL-LIGHTED SCHOOL ROOMS

Where children sit and study for six hours a day, there should be sufficient and proper light. It has been proved that a school house with windows on two opposite sides causes severe eye-strain and in many cases causes permanent injury to the eyes of the children. I believe that the eyesight of Barrington children has been impaired and is being impaired by the improper lighting of the school houses. This is stated quite emphatically in the report of the examining physician who finds a large percentage of pupils with defective eyesight and insists that something should be done to correct these unsatisfactory conditions.

ALTERATIONS NEEDED

With a few alterations the Waldron Hill school house can be made very satisfactory. The windows

on the right hand side should be removed and the window space on the left should be practically doubled. A covered passage should connect the toilets with the school house. Similar changes should be made at Pond Hill. At the Winkley school two or three windows should be moved in order to have proper lighting. An appropriation of \$600 each year for three years ought to do most of the work that can now be determined upon. By the time these changes are made we should be better able to decide what should be done for the Green Hill school house and whether a two-room school is needed at Oak Hill.

CONDITION OF THE SCHOOLS

Barrington people should have confidence in the school board for what they have done and are doing for the schools. Heating and ventilation have been improved in four of the five buildings. Satisfactory toilets have been provided at two. Correct lighting has been secured at Oak Hill and in part at Winkley school. Improved text books and a greater variety of supplies and other equipment are found in all the schools. New window shades and some new blackboards have been provided. More attention is given to the health and physical welfare of the pupils. The quality of teaching is being gradually improved by securing teachers with better training and more experience.

Respectfully submitted,

O. R. MCCOY,
Superintendent.

PUPILS PERFECT IN ATTENDANCE 1924-1925

Evelyn Green, Mildred Wescott, Maurice Emerson.
